# Subject index for volumes 28 and 29

A clinicopathologic study of transient osteoporosis of the hip 28:621
A comparative study of the accuracy of Ranawat's and Pierchon's methods to determine the centre of rotation in bilateral coxopathy 29:652
A new classification for cervical vertebral injuries: influence of CT (*review article*) 29:125
A new ultrasound-based method for the assessment of torsional differences following closed intramedullary nailing of femoral fractures 28:336
A pilot study using magnetic resonance imaging to determine the pattern of muscle group recruitment by rowers with different levels of experience 29:196
A radiological technique for the assessment of wear in prosthetic knee replacements 29:583
Achilles tendon, MR imaging of the: overlap of findings in symptomatic and asymptomatic individuals 29:640
Achilles tendon ruptures, sonographic appearance of nonoperatively treated 29:259
Acromegaly, locking of metacarpophalangeal joints in a patient with (*case report*) 28:655
Acromium, chondromyxoid fibroma of the, with soft tissue extension (*case report*) 29:168
Acrylic cement, percutaneous injection of, rapid chondrolysis after an intra-articular leak of bone cement in treatment of a benign acetabular subchondral cyst: an unusual complication of (*case report*) 29:275
Allografts, magnetic resonance imaging features of 28:383
Alveolar soft part sarcoma: MR and angiographic findings 29:680
Amyloidoma, popliteal, presenting with leg ischemia in a chronic dialysis patient (*case report*) 29:717
Amyloid tumors, bilateral metachronous periosteal tibial (*case report*) 29:346
An assessment of the effectiveness of magnetic resonance imaging of the shoulder: literature review (*review article*) 29:673
Aneurysmal bone cysts, percutaneous Ethibloc injection in 29:211
Aneurysmal bone cyst, solid, in the humerus (*case report*) 29:470
Angioendothelioma, endovascular papillary, (Dabska tumor) of bone (*case report*) 28:100
Angioleiomyoma ,primary, of the iliac bone: clinical pathological study of one case with flow cytometric DNA content and S-phase fraction analysis (*case report*) 29:181
Angiomyolipoma arising in the thigh (*case report*) 29:293
Angiosarcoma associated with chronic lymphedema (Stewart-Treves syndrome) of the leg: MR imaging (*case report*) 29:413
Ankle, magnetic resonance imaging findings in anterolateral impingement of the 29:34
Ankle, posterior impingement syndrome of the, MR imaging features of the posterior intermalleolar ligament in patients with 28:573
Ankylosing spondylitis, marginal erosive discovertebral "Romanus" lesions in, demonstrated by contrast enhanced Gd-DTPA magnetic resonance imaging 29:27
Annulus fibrosus, degenerated, peripheral focal low signal intensity areas in the, on T2-weighted fast spin echo MR images: correlation with macroscopic and microscopic findings in elderly cadavers 28:209
Aortic graft infection, hypertrophic osteoarthropathy of one leg – a sign of (*case report*) 28:224
Are L5 fractures an indicator of metastasis? 29:454
Are magnetic resonance flexion views useful in evaluating the cervical spine of patients with rheumatoid arthritis? 29:85
Arthritis and hidradenitis suppurativa diagnosed in a 48-year-old man (*case report*) 28:453
Arthrogryposis type 1, prenatal diagnosis of distal (*case report*) 28:233
Arthroplasty, the pathology of total joint 1. Mechanisms of implant fixation (*review article*) 28:423
Arthroplasty, the pathology of total joint, II Mechanisms of implant failure (*review article*) 28:483
Articular injuries (chondral, osteochondral and subchondral fractures), imaging of acute injuries of the (*review article*) 28:545
Association of posterior tibial tendon abnormalities with abnormal signal intensity in the sinus tarsi on MR imaging 29:514
Atypical adult non-calcified pilomatricoma (*case report*) 29:54
Atypical calcific tendinitis with cortical erosions 29:690

Benign and malignant cartilage tumors of bone and joint: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. II. Juxtacortical cartilage tumors (*review article*) 28:1
Benign vascular lesions of bone: radiologic and pathologic features (*review article*) 29:63
Bilateral metachronous periosteal tibial amyloid tumors (*case report*) 29:346
Bone and soft tissue tumors, cytogenetic and molecular genetic techniques as adjunctive approaches in the diagnosis of (*review article*) 29:249
Bone densitometry, precision and intersite correlation of, at the radius, tibia and femur with peripheral quantitative CT 28:696
Bone density distribution and gender dominate femoral neck fracture risk predictors 29:151
Bone marrow, frequency and spectrum of abnormalities in the, of the wrist: MR imaging findings 28:312
Bone marrow, heterogeneous signal in, on MRI of children's feet: a normal finding? 28:274
Bone marrow response in treated patients with Gaucher disease: evaluation by T1-weighted magnetic resonance images and correlation with reduction in liver and spleen volume 29:563
Bone scintigraphy and magnetic resonance imaging after transtrochanteric rotational osteotomy 28:251
Brachial plexopathy, MR imaging of, in breast cancer patients without palpable recurrence 28:318
Breast cancer, MR imaging of brachial plexopathy in, patients without palpable recurrence 28:318
Broad clavicles in trisomy 8 mosaicism: a new sign (*case report*) 28:359
Bursitis, retrocalcaneal, MRI-induced (*case report*) 28:581

"Cable-maker's clavicle": stress fracture of the medial clavicle (*case report*) 29:421
Calcaneonavicular coalition, features of, on coronal computed tomography 29:409
Cartilage, articular, MR imaging of (*review article*) 29:367
Cartilage tumors of bone and joint, benign and malignant: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. II. Juxtacortical cartilage tumors (*review article*) 28:1
Cervical spine, are magnetic resonance flexion views useful in evaluating the, of patients with rheumatoid arthritis? 29:85
Cervical spine, helical CT in the primary trauma evaluation of the: an evidence-based approach (*review article*) 29:632
Cervical spinous process fractures, "Spinolaminar breach": an important sign in 29:75
Cervical vertebral injuries a new classification for: influence of CT (*review article*) 29:125
Cherubism: clinicopathologic features (*case report*) 28:350
Children's feet, heterogeneous signal in bone marrow on MRI of: a normal finding? 28:274

# Subject index for volumes 28 and 29

A clinicopathologic study of transient osteoporosis of the hip 28:621
A comparative study of the accuracy of Ranawat's and Pierchon's methods to determine the centre of rotation in bilateral coxopathy 29:652
A new classification for cervical vertebral injuries: influence of CT (*review article*) 29:125
A new ultrasound-based method for the assessment of torsional differences following closed intramedullary nailing of femoral fractures 28:336
A pilot study using magnetic resonance imaging to determine the pattern of muscle group recruitment by rowers with different levels of experience 29:196
A radiological technique for the assessment of wear in prosthetic knee replacements 29:583
Achilles tendon, MR imaging of the: overlap of findings in symptomatic and asymptomatic individuals 29:640
Achilles tendon ruptures, sonographic appearance of nonoperatively treated 29:259
Acromegaly, locking of metacarpophalangeal joints in a patient with (*case report*) 28:655
Acromium, chondromyxoid fibroma of the, with soft tissue extension (*case report*) 29:168
Acrylic cement, percutaneous injection of, rapid chondrolysis after an intra-articular leak of bone cement in treatment of a benign acetabular subchondral cyst: an unusual complication of (*case report*) 29:275
Allografts, magnetic resonance imaging features of 28:383
Alveolar soft part sarcoma: MR and angiographic findings 29:680
Amyloidoma, popliteal, presenting with leg ischemia in a chronic dialysis patient (*case report*) 29:717
Amyloid tumors, bilateral metachronous periosteal tibial (*case report*) 29:346
An assessment of the effectiveness of magnetic resonance imaging of the shoulder: literature review (*review article*) 29:673
Aneurysmal bone cysts, percutaneous Ethibloc injection in 29:211
Aneurysmal bone cyst, solid, in the humerus (*case report*) 29:470
Angioendothelioma, endovascular papillary, (Dabska tumor) of bone (*case report*) 28:100
Angioleiomyoma ,primary, of the iliac bone: clinical pathological study of one case with flow cytometric DNA content and S-phase fraction analysis (*case report*) 29:181
Angiomyolipoma arising in the thigh (*case report*) 29:293
Angiosarcoma associated with chronic lymphedema (Stewart-Treves syndrome) of the leg: MR imaging (*case report*) 29:413
Ankle, magnetic resonance imaging findings in anterolateral impingement of the 29:34
Ankle, posterior impingement syndrome of the, MR imaging features of the posterior intermalleolar ligament in patients with 28:573
Ankylosing spondylitis, marginal erosive discovertebral "Romanus" lesions in, demonstrated by contrast enhanced Gd-DTPA magnetic resonance imaging 29:27
Annulus fibrosus, degenerated, peripheral focal low signal intensity areas in the, on T2-weighted fast spin echo MR images: correlation with macroscopic and microscopic findings in elderly cadavers 28:209
Aortic graft infection, hypertrophic osteoarthropathy of one leg – a sign of (*case report*) 28:224
Are L5 fractures an indicator of metastasis? 29:454
Are magnetic resonance flexion views useful in evaluating the cervical spine of patients with rheumatoid arthritis? 29:85
Arthritis and hidradenitis suppurativa diagnosed in a 48-year-old man (*case report*) 28:453
Arthrogryposis type 1, prenatal diagnosis of distal (*case report*) 28:233
Arthroplasty, the pathology of total joint 1. Mechanisms of implant fixation (*review article*) 28:423
Arthroplasty, the pathology of total joint, II Mechanisms of implant failure (*review article*) 28:483
Articular injuries (chondral, osteochondral and subchondral fractures), imaging of acute injuries of the (*review article*) 28:545
Association of posterior tibial tendon abnormalities with abnormal signal intensity in the sinus tarsi on MR imaging 29:514
Atypical adult non-calcified pilomatricoma (*case report*) 29:54
Atypical calcific tendinitis with cortical erosions 29:690

Benign and malignant cartilage tumors of bone and joint: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. II. Juxtacortical cartilage tumors (*review article*) 28:1
Benign vascular lesions of bone: radiologic and pathologic features (*review article*) 29:63
Bilateral metachronous periosteal tibial amyloid tumors (*case report*) 29:346
Bone and soft tissue tumors, cytogenetic and molecular genetic techniques as adjunctive approaches in the diagnosis of (*review article*) 29:249
Bone densitometry, precision and intersite correlation of, at the radius, tibia and femur with peripheral quantitative CT 28:696
Bone density distribution and gender dominate femoral neck fracture risk predictors 29:151
Bone marrow, frequency and spectrum of abnormalities in the, of the wrist: MR imaging findings 28:312
Bone marrow, heterogeneous signal in, on MRI of children's feet: a normal finding? 28:274
Bone marrow response in treated patients with Gaucher disease: evaluation by T1-weighted magnetic resonance images and correlation with reduction in liver and spleen volume 29:563
Bone scintigraphy and magnetic resonance imaging after transtrochanteric rotational osteotomy 28:251
Brachial plexopathy, MR imaging of, in breast cancer patients without palpable recurrence 28:318
Breast cancer, MR imaging of brachial plexopathy in, patients without palpable recurrence 28:318
Broad clavicles in trisomy 8 mosaicism: a new sign (*case report*) 28:359
Bursitis, retrocalcaneal, MRI-induced (*case report*) 28:581

"Cable-maker's clavicle": stress fracture of the medial clavicle (*case report*) 29:421
Calcaneonavicular coalition, features of, on coronal computed tomography 29:409
Cartilage, articular, MR imaging of (*review article*) 29:367
Cartilage tumors of bone and joint, benign and malignant: their anatomic and theoretical basis with an emphasis on radiology, pathology and clinical biology. II. Juxtacortical cartilage tumors (*review article*) 28:1
Cervical spine, are magnetic resonance flexion views useful in evaluating the, of patients with rheumatoid arthritis? 29:85
Cervical spine, helical CT in the primary trauma evaluation of the: an evidence-based approach (*review article*) 29:632
Cervical spinous process fractures, "Spinolaminar breach": an important sign in 29:75
Cervical vertebral injuries a new classification for: influence of CT (*review article*) 29:125
Cherubism: clinicopathologic features (*case report*) 28:350
Children's feet, heterogeneous signal in bone marrow on MRI of: a normal finding? 28:274

Chondroblastoma, malignant, presenting as a recurrent pelvic tumor with DNA aneuploidy and p53 mutation as a supportive evidence of malignancy (*case report*) 28:644
Chondroblastoma, metadiaphyseal, of the thumb (*case report*) 29:176
Chondrolysis, rapid, after an intra-articular leak of bone cement in treatment of a benign acetabular subchondral cyst: an unusual complication of percutaneous injection of acrylic cement (*case report*) 29:275
Chondromyxoid fibroma, juxtacortical, arising in an apophysis (*case report*) 29:466
Chondromyxoid fibroma of the acromium with soft tissue extension (*case report*) 29:168
Chondromyxoid fibroma of two thoracic vertebrae (*case report*) 28:286
Chondro-osseous differentiation in fat tissue tumors: magnetic resonance imaging with pathological correlation 29:459
Chondrosarcoma, clear cell, of the pelvis in a skeletally immature patient (*case report*) 28:290
Chondrosarcoma, extraskeletal myxoid, of the knee (*case report*) 28:354
Chondrosarcoma of the foot: imaging, surgical and pathological correlation of three new cases 28:153
Chordoma, sarcomatoid: chordoma with a massive malignant spindle-cell component (*case report*) 29:721
Chordoma, vertebral intra-osseous, or giant notochordal rest? (*case report*) 28:342
Chronic avulsive injuries of childhood 28:138
Chronic post-traumatic osteomyelitis of the lower extremity: comparison of magnetic resonance imaging and combined bone scintigraphy/immunoscintigraphy with radiolabelled monoclonal antigranulocyte antibodies 29:378
Chronic ulceration of the leg following extensive scarring due to a snake bite complicated by squamous cell carcinoma (*case report*) 29:298
Clavicle, cable-maker's": stress fracture of the medial clavicle (*case report*) 29:421
Clavicle, distal, post-traumatic and stress-induced osteolysis of the:MR imaging findings in 17 patients 28:202
Clavicle, increased T2 signal intensity in the distal: incidence and clinical implications 29:697
Clavicle, solitary infantile myofibromatosis involving the (*case report*) 28:473
Clear cell chondrosarcoma of the pelvis in a skeletally immature patient (*case report*) 28:290
Clear cell sarcoma (malignant melanoma of the soft parts):MR imaging of, a multicenter correlative MRI-pathology study of 21 cases and literature review 29:187
Clinical significance of erosive azotemic osteodystrophy: a prospective masked study 28:86
Collagenous fibroma of the arm: a report of two cases (*case report*) 29:417
Comparison of polytomography and computed tomography for fracture assessment 28:330
Comparison of supraspinatus tendon and glenohumeral joint axes in MR imaging of the shoulder 29:397
Complete rupture of the distal semimembranosus tendon with secondary hamstring muscles atrophy: MR findings in two cases 29:362
Congenital transverse deficiency of the tibia and fibula: a report of two cases (*case report*) 29:243
Coxopathy, bilateral, a comparative study of the accuracy of Ranawat's and Pierchon's methods to determine the centre of rotation in 29:652
Cryptococcoma of the sacrum (*case report*) 28:49
CT, quantitative, precision and intersite correlation of bone densitometry at the radius, tibia and femur with peripheral 28:696
Cystic fibrous dysplasia mimicking giant cell tumor: MRI appearance (*case report*) 29:45
Cytogenetic and molecular genetic techniques as adjunctive approaches in the diagnosis of bone and soft tissue tumors (*review article*) 29:249

D-2-hydroxyglutaric aciduria in association with spondyloenchondromatosis (*case report*) 29:289
Dedifferentiated parosteal osteosarcoma with rhabdomyosarcomatous differentiation (*case report*) 28:527
Deep-seated segmental neurofibromatosis without café au lait spots (*case report*) 29:543
Deep soft tissue leiomyoma of the thigh (*case report*) 28:411
Deep soft tissue hemangiomas (*letter to the editors*) 28:57
Degenerative arthritis, premature epiphyseal fusion and, in chronic recurrent multifocal osteomyelitis (*case report*) 29:94
Denervation syndromes of the shoulder girdle: MR imaging with electrophysiologic correlation 28:567
Density predicts the activity-dependent failure load of proximal femora with defects 28:90
Desmoplastic fibroblastoma, synovial, of hip joint with bone erosion (*case report*) 28:402
Desmoplastic fibroma of bone: MRI features (*case report*) 29:171
Diabetic muscle infarction: atypical MR appearance (*case report*) 29:477
Diffusion imaging, in vitro and in vivo spin echo, characteristics of synovial fluid: potential non-invasive differentiation of inflammatory and degenerative arthritis 29:320
Diffusion-weighted imaging of the musculoskeletal system in humans (*review article*) 29:555
Doppler duplex color localization of osteoid osteomas (*case report*) 28:107
Dual X-ray absorptiometry, lumbar and radial bone mineral density in children and adolescents with X-linked hypophosphatemia: evaluation with 29:90
Dumb-bell-type teratoma in the lumbar spine (*case report*) 29:104
Dysplasia, mandibulo-acral (*case report*) 29:668

Ebb and flow rickets in a premature infant: the Afghan turban sign (*case report*) 28:651
Ecchinococcosis, MR appearances in a case of femoral (*case report*) 29:235
Ectopic calcification following tibial fracture: property analysis (*case report*) 29:609
Effect of low back posture on the morphology of the spinal canal 29:217
Elastofibroma of the neck (*case report*) 29:109
Endovascular papillary angioendothelioma (Dabska tumor) of bone (*case report*) 28:100
Ependymoma, osteolytic extra-axial sacral myxopapillary (*case report*) 28:584
Epithelioid hemangioma of bone (*case report*) 29:530
Erdheim-Chester disease with intramuscular lipogranuloma (*case report*) 29:227
Evaluation of the postoperative meniscus of the knee: a study comparing conventional arthrography, conventional MR imaging, MR arthrography with iodinated contrast material, and MR arthrography with gadolinium-based contrast material 28:508
Extraosseous calcified plasmacytoma causing thoracic myelopathy (*case report*) 28:347
Extraskeletal myxoid chondrosarcoma of the knee (*case report*) 28:354
Extraskeletal myxoid chondrosarcoma of the knee (*letter to the editors*) 29:302
Extraskeletal osteochondroma of the foot 28:594

Facet degenerative joint disease, pedicle marrow signal intensity changes in the lumbar spine: a manifestation of 29:703
Fat-suppressed fast spin-echo mid-TE (TE(effective)=34) MR images: comparison with fast spin-echo T2-weighted images for the diagnosis of tears and anatomic variants of the glenoid labrum 28:685
Fat tissue tumors, chondro-osseous differentiation in: magnetic resonance imaging with pathological correlation 29:459
Features of calcaneonavicular coalition on coronal computed tomography 29:409
Femoral condyle, medial, subchondral insufficiency fracture of the femoral head and (*case report*) 29:40

Femoral ecchinococcosis, MR appearances in a case of (*case report*) 29:235
Femoral fractures, a new ultrasound-based method for the assessment of torsional differences following closed intramedullary nailing of 28:336
Femoral head, MR findings of necrotic lesions and the extralesional area of osteonecrosis of the 29:133
Femoral head, subchondral insufficiency fracture of the, and medial femoral condyle (*case report*) 29:40
Femoral neck buttressing: a radiographic and histologic analysis 29:587
Femoral neck fracture, Bone density distribution and gender dominate, risk predictors 29:151
Fibrogenesis imperfecta ossium: imaging correlation in three new patients 28:390
Fibrolipomatous hamartoma: pathognomonic on MR imaging 28:260
Fibroma, collagenous, of the arm: a report of two cases (*case report*) 29:417
Fibroma of tendon sheath of the infrapatellar fat pad (*case report*) 28:407
Fibula, nutrient canal of the 29:22
Flexor digitorum accessorius longus, MR imaging of 28:130
Foot and ankle, MR imaging of inflammatory joint diseases of the (*review article*) 28:663
Foot, chondrosarcoma of the: imaging, surgical and pathological correlation of three new cases 28:153
Foot, extraskeletal osteochondroma of the 28:594
Fracture assessment, comparison of polytomography and computed tomography for 28:330
Fractures, femoral, a new ultrasound-based method for the assessment of torsional differences following closed intramedullary nailing of 28:336
Fractures, L5, are, an indicator of metastasis? 29:454
Fractures, MRI findings of thoracolumbar spine: a categorisation based on MRI examinations of 100 fractures 28:433
Fractures of the greater trochanter: intertrochanteric extension shown by MR imaging 29:572
Fracture of the lateral process of the talus: appearance at MR imaging and clinical significance (*case report*) 28:236
Fracture, tibial, ectopic calcification following: property analysis (*case report*) 29:609
Frequency and spectrum of abnormalities in the bone marrow of the wrist: MR imaging findings 28:312

Ganglion, intraneural, peroneal nerve palsy caused by (*case report*) 28:52
Gaucher disease, bone marrow response in treated patients with: evaluation by T1-weighted magnetic resonance images and correlation with reduction in liver and spleen volume 29:563
Gaucher disease, Type I: extraosseous extension of skeletal disease 29:15
Geode, giant distal humeral (*case report*) 29:165
Giant ancient schwannoma of the pelvis (*case report*) 29:538
Giant cell tumor, cystic fibrous dysplasia mimicking: MRI appearance (*case report*) 29:45
Giant cell tumor, mid-foot reconstruction following involvement of five bones by (*case report*) 29:664
Giant distal humeral geode (*case report*) 29:165
Giant rice bodies, variation among: report of four cases and their clinicopathological features 29:525
Glenohumeral instability: evaluation using MR arthrography of the shoulder (*review article*) 28:365
Glenoid labrum, fat-suppressed fast spin-echo mid-TE (TE(effective)=34) MR images: comparison with fast spin-echo T2-weighted images for the diagnosis of tears and anatomic variants of the 28:685
Glomus tumor, intraosseous, of the fibula (*case report*) 29:708
Gouty tophi, intra-articular of the knee: CT and MR imaging in 12 patients 28:75
Gracilis muscle and tendon, tuberculous infection of the, clinically mimicking deep venous thrombosis: sonographic findings (*case report*) 28:457
Granular cell tumor of the subcutis: CT and MRI findings. A report of three cases 28:96
Greater trochanter,fractures of the: intertrochanteric extension shown by MR imaging 29:572
Gross vertebral collapse associated with long-term disodium etidronate treatment for pelvic Paget's disease (*case report*) 29:279

Hand and wrist, Masses and pseudomasses of the: MR findings in 134 cases 28:498
Hand, partial transient osteoporosis of the 28:324
Helical CT in the primary trauma evaluation of the cervical spine: an evidence-based approach (*review article*) 29:632
Hemangioendothelioma, intramuscular spindle cell (*case report*) 28:477
Hemangioma, epithelioid, of bone (*case report*) 29:530
Hemangioma, juxta-articular, of long bone (*case report*) 29:535
Hemangioma of bone arising in the ulna: imaging findings with emphasis on MR (*case report*) 29:231
Hemangioma, solitary skeletal, of the extremities 29:502
Hemangiopericytoma, primary, of the tibia: MR and angiographic correlation (*case report*) 29:49
Hematoma, the radiological findings in chronic expanding 28:396
Hemorrhage, the magnetic resonance imaging of musculoskeletal (*review article*) 29:1
Hereditary arthro-ophthalmopathy (Stickler syndrome) (*case report*) 29:613
Heterogeneous signal in bone marrow on MRI of children's feet: a normal finding? 28:274
Hidradenitis suppurativa, arthritis and, diagnosed in a 48-year-old man (*case report*) 28:453
Hidradenoma, clear cell, MRI appearance of (*case report*) 28:104
High-frequency ultrasound examination of the wrist and hand (*review article*) 28:121
Hip, a clinicopathologic study of transient osteoporosis of the 28:621
Hip, developmental dysplasia of the, intra-articular membranous interposition detected by MRI in (*case report*) 29:726
Hip joint, synovial desmoplastic fibroblastoma of, with bone erosion (*case report*) 28:402
Hip, MR arthrography of the shoulder and, after fluoroscopic landmarking 29:81
Humeral, giant distal, geode (*case report*) 29:165
Humerus, myxoma of the: an exceptional site of origin (*case report*) 29:57
Hyperfunctioning parathyroid carcinoma (*case report*) 29:112
Hyperostosis generalisata with striations of the bones: report of a female case and a review of the literature (*case report*) 28:460
Hypertrophic osteoarthropathy of one leg – a sign of aortic graft infection (*case report*) 28:224
Hypertrophy and pseudohypertrophy of the lower leg following chronic radiculopathy and neuropathy: imaging findings in two patients 28:229

Iliac bone, primary angioleiomyoma of the: clinical pathological study of one case with flow cytometric DNA content and S-phase fraction analysis (*case report*) 29:181
Imaging in isolated sacral tuberculosis: a review of 15 cases 29:392
Imaging of acute injuries of the articular surfaces (chondral, osteochondral and subchondral fractures) (*review article*) 28:545
Imaging of plant-thorn synovitis (*case report*) 29:605
Increased T2 signal intensity in the distal clavicle: incidence and clinical implications 29:697
Indirect wrist MR arthrography: the effects of passive motion versus active exercise 29:10
Inflammatory joint diseases of the foot and ankle, MR imaging of (*review article*) 28:663
Insufficiency fracture, subchondral, of the femoral head and medial femoral condyle (*case report*) 29:40
Internal derangements of the shoulder: decision tree and cost-effectiveness analysis of conventional arthrography, conventional MRI, and MR arthrography 28:670

Intra-articular entrapment of the medial collateral ligament: radiographic and MRI findings 28:658
Intra-articular gouty tophi of the knee: CT and MR imaging in 12 patients 28:75
Intra-articular membranous interposition detected by MRI in developmental dysplasia of the Hip (*case report*) 29:726
Intra-articular regional migratory osteoporosis of the knee (*case report*) 29:97
Intracortical osteoblastic osteosarcoma with oncogenic rickets 28:41
Intramuscular metastasis from malignant melanoma: MR findings (*case report*) 28:714
Intramuscular spindle cell hemangioendothelioma (*case report*) 28:477
Intramuscular vascular malformations of an extremity: findings on MR imaging and pathologic correlation 28:515
Intraosseous glomus tumor of the fibula (*case report*) 29:708
Intraosseous microcystic meningioma (*case report*) 29:354
Intraosseous schwannoma of the metacarpal (*case report*) 29:224
In vitro and in vivo spin echo diffusion imaging characteristics of synovial fluid: potential non-invasive differentiation of inflammatory and degenerative arthritis 29:320

Jansen type of spondylometaphyseal dysplasia (*case report*) 29:239
Juxta-articular hemangioma of long bone (*case report*) 29:535
Juxtacortical chondromyxoid fibroma arising in an apophysis (*case report*) 29:466

Knee, evaluation of the postoperative meniscus of the: a study comparing conventional arthrography, conventional MR imaging, MR arthrography with iodinated contrast material, and MR arthrography with gadolinium-based contrast material 28:508
Knee, extraskeletal myxoid chondrosarcoma of the (*case report*) 28:354
Knee, intra-articular gouty tophi of the: CT and MR imaging in 12 patients 28:75
Knee, intra-articular regional migratory osteoporosis of the (*case report*) 29:97
Knee joint, reactive synovitis of the: MR imaging appearance with arthroscopic correlation 29:577
Knee, MRI of the: value of short echo time fast spin-echo using high performance gradients versus conventional spin-echo imaging for the detection of meniscal tears 29:520
Knee, posteromedial corner of the: MR imaging with gross anatomic correlation 28:305
Knee, radiography in osteoarthritis of the (*review article*) 28:605

Leiomyoma, deep soft tissue, of the thigh (*case report*) 28:411
Leprosy, US and MR imaging of peripheral nerves in 29:142
Leukemia, acute lymphoblastic, tunneling Schmorl's nodes in an elderly woman treated for (*case report*) 29:660
Ligament injuries, magnetic resonance imaging in the evaluation of (*review article*) 28:61
Lipogranuloma,Erdheim-Chester disease with intramuscular (*case report*) 29:227
Lipoma arborescens, subacromial-subdeltoid, associated with a rotator cuff tear 28:283
Lipomas, intramuscular, MRI findings in 28:145
Locking of metacarpophalangeal joints in a patient with acromegaly (*case report*) 28:655
Lumbar and radial bone mineral density in children and adolescents with X-linked hypophosphatemia: evaluation with dual X-ray absorptiometry 29:90
Lumbar disc height, radiographic evaluation of the 28:638
Lumbar facet joints, MR imaging and CT in osteoarthritis of the 28:215
Lumbar spine, dumb-bell-type teratoma in the (*case report*) 29:104
Lumbar spine, pedicle marrow signal intensity changes in the: a manifestation of facet
Lymphoma of bone, primary non-Hodgkin: unusual manifestation of lymphoproliferative disease following liver transplantation (*case report*) 28:175

Magic angle effect, the influence of flip angle on the 29:593
Magnetic resonance arthrography, patient perception of 29:265
Magnetic resonance flexion views, are, useful in evaluating the cervical spine of patients with rheumatoid arthritis? 29:85
Magnetic resonance imaging, an assessment of the effectiveness of of the shoulder: literature review (*review article*) 29:673
Magnetic resonance imaging, A pilot study using, to determine the pattern of muscle group recruitment by rowers with different levels of experience 29:196
Magnetic resonance imaging, bone scintigraphy and, after transtrochanteric rotational osteotomy 28:251
Magnetic resonance imaging, contrast enhanced Gd-DTPA, marginal erosive discovertebral "Romanus" lesions in ankylosing spondylitis demonstrated by 29:27
Magnetic resonance imaging features of allografts 28:383
Magnetic resonance imaging findings in anterolateral impingement of the ankle 29:34
Magnetic resonance imaging in the evaluation of ligament injuries (*review article*) 28:61
Magnetic resonance imaging of rheumatoid arthritis in metacarpophalangeal joints 29:324
Magnetic resonance imaging of the temporomandibular joint: diagnostic difficulty caused by extensive pneumatization of the mastoid air cells 28:577
Magnetic resonance imaging, pectoralis major muscle and tendon tears: diagnosis and grading using (*review article*) 29:305
Magnetic resonance imaging, peritumoral edema in osteoid osteoma on 28:265
Malignant chondroblastoma presenting as a recurrent pelvic tumor with DNA aneuploidy and p53 mutation as a supportive evidence of malignancy (*case report*) 28:644
Malignant degeneration of an osteochondroma with unusual intra-bursal invasion (*case report*) 28:540
Malignant round cell tumours of bone: atypical clinical and imaging features 29:646
Malignant vascular lesions of bone: radiologic and pathologic features (*review article*) 29:619
Mandible, neurilemmoma of the (*case report*) 28:536
Mandibulo-acral dysplasia (*case report*) 29:668
Mannosidosis: an unusual cause of a deforming arthropathy (*case report*) 29:358
Marginal erosive discovertebral "Romanus" lesions in ankylosing spondylitis demonstrated by contrast enhanced Gd-DTPA magnetic resonance imaging 29:27
Masses and pseudomasses of the hand and wrist: MR findings in 134 cases 28:498
Mazabraud's syndrome, osteosarcoma in a patient with McCune-Albright syndrome and (*case report*) 28:522
McCune-Albright syndrome, osteosarcoma in a patient with, and Mazabraud's syndrome (*case report*) 28:522
Medial collateral ligament, intra-articular entrapment of the: radiographic and MRI findings 28:658
Melanoma, malignant, intramuscular metastasis from: MR findings (*case report*) 28:714
Melorheostosis: *case report* with radiologic-pathologic correlation (*case report*) 29:548
Meningioma, intraosseous microcystic (*case report*) 29:354
Meniscal ossicle, multimodality imaging assessment of (*case report*) 29:481
Meniscofemoral ligaments, variations in, at anatomical study and MR imaging 28:189
Metacarpal, intraosseous schwannoma of the (*case report*) 29:224
Metadiaphyseal chondroblastoma of the thumb (*case report*) 29:176
Metastasis, are L5 fractures an indicator of? 29:454
Metastases, skeletal muscle, osteogenic sarcoma with (*case report*) 28:298

Metastases, unsuspected, presenting as solitary soft tissue lesions: a fourteen-year review 29:270
Metastatic bone tumor mimicking spontaneous osteonecrosis of the medial condyle of the femur: misleading appearance on MR imaging (*case report*) 29:286
Metatarsus adductus foot deformity, stress fractures of the lateral metatarsal bones in: a previously unrecognised association 28:679
Metatarsal bones, lateral, stress fractures of the, in metatarsus adductus foot deformity: a previously unrecognised association 28:679
Mid-foot reconstruction following involvement of five bones by giant cell tumor (*case report*) 29:664
MR and angiographic correlation, primary hemangiopericytoma of the tibia (*case report*) 29:49
MR appearances in a case of femoral ecchinococcosis (*case report*) 29:235
MR arthrography, evaluation of the post-operative meniscus of the knee: a study comparing conventional arthrography, conventional MR imaging, MR arthrography with iodinated contrast material, and with gadolinium-based contrast material 28:508
MR arthrography, glenohumeral instability: evaluation using, of the shoulder (*review article*) 28:365
MR arthrography, indirect, wrist: the effects of passive motion versus active exercise 29:10
MR arthrography, internal derangements of the shoulder: decision tree and cost-effectiveness analysis of conventional arthrography, conventional MRI, and 28:670
MR arthrography of the shoulder and hip after fluoroscopic landmarking 29:81
MR findings in 134 cases, Masses and pseudomasses of the hand and wrist: 28:498
MR findings, intramuscular metastasis from malignant melanoma (*case report*) 28:714
MR findings in two cases, complete rupture of the distal semimembranosus tendon with secondary hamstring muscles atrophy: 29:362
MR findings of necrotic lesions and the extralesional area of osteonecrosis of the femoral head 29:133
MR, hemangioma of bone arising in the ulna: imaging findings with emphasis on (*case report*) 29:231
MR images, fat-suppressed fast spin-echo mid-TE (TE(effective)=34): comparison with fast spin-echo T2-weighted images for the diagnosis of tears and anatomic variants of the glenoid labrum 28:685
MR imaging after rotator cuff repair: full-thickness defects and bursitis-like subacromial abnormalities in asymptomatic subjects 29:314
MR imaging after therapeutic injection of the subacromial bursa 28:628
MR imaging and CT in osteoarthritis of the lumbar facet joints 28:215
MR imaging and pediatric fractures (*letter to the editors*) 28:362
MR imaging ,angiosarcoma associated with chronic lymphedema (Stewart-Treves syndrome) of the leg: (*case report*) 29:413
MR imaging appearances, pathologic and post-operative conditions of the plantar fascia: review of (*review article*) 29:491
MR imaging features of the posterior intermalleolar ligament in patients with posterior impingement syndrome of the ankle 28:573
MR imaging, fibrolipomatous hamartoma: pathognomonic on 28:260
MR imaging findings in spring ligament insufficiency 28:245
MR imaging, frequency and spectrum of abnormalities in the bone marrow of the wrist: findings 28.312
MR imaging, intramuscular vascular malformations of an extremity: findings on and pathologic correlation 28:515
MR imaging, metastatic bone tumor mimicking spontaneous osteonecrosis of the medial condyle of the femur: misleading appearance on (*case report*) 29:286
MR imaging of articular cartilage (*review article*) 29:367
MR imaging of brachial plexopathy in breast cancer patients without palpable recurrence 28:318
MR imaging of clear cell sarcoma (malignant melanoma of the soft parts): a multicenter correlative MRI-pathology study of 21 cases and literature review 29:187
MR imaging of flexor digitorum accessorius longus 28:130
MR imaging of inflammatory joint diseases of the foot and ankle (review article) 28:663
MR imaging of septic sacroiliitis 29:439
MR imaging of the Achilles tendon: overlap of findings in symptomatic and asymptomatic individuals 29:640
MR imaging of the shoulder, comparison of supraspinatus tendon and gleno-humeral joint axes in 29:397
MR imaging, posteromedial corner of the knee: with gross anatomic correlation 28:305
MR imaging, the plantar fasciotomy: findings in asymptomatic volunteers 28:447
MR imaging, US and, of peripheral nerves in leprosy 29:142
MR imaging with electrophysiologic correlation, denervation syndromes of the shoulder girdle: 28:567
MR visualization of the popliteomeniscal fascicles 28:561
MRI appearance, cystic fibrous dysplasia mimicking giant cell tumor (*case report*) 29:45
MRI appearance of clear cell hidradenoma (*case report*) 28:104
MRI characteristics, proteus syndrome: of plantar cerebriform hyperplasia (*case report*) 29:101
MRI characteristics, the septic versus nonseptic inflamed joint: 28:616
MRI evaluation of post-operative seromas in extremity soft tissue sarcomas 28:279
MRI features, desmoplastic fibroma of bone (*case report*) 29:171
MRI findings in intramuscular lipomas 28:145
MRI findings, muscle hernias of the lower leg (*case report*) 28:465
MRI findings of thoracolumbar spine fractures: a categorisation based on MRI examinations of 100 fractures 28:433
MRI, heterogeneous signal in bone marrow on, of children's feet: a normal finding? 28:274
MRI-induced retrocalcaneal bursitis (*case report*) 28:581
MRI in inflammatory myopathies (*review article*) 29:425
MRI of the knee: value of short echo time fast spin-echo using high performance gradients versus conventional spin-echo imaging for the detection of meniscal tears 29:520
Multifocal osteoblastoma of the hand (*case report*) 29:601
Multifocal osteosarcoma as second tumor after childhood retinoblastoma (*case report*) 28:415
Multifocal osteogenic sarcoma in Paget's disease (*case report*) 29:349
Multimodality imaging assessment of meniscal ossicle (*case report*) 29:481
Muscle hernias of the lower leg: MRI findings (*case report*) 28:465
Muscle infarction, diabetic: atypical MR appearance (*case report*) 29:477
Myelopathy, thoracic, extraosseous calcified plasmacytoma causing (*case report*) 28:347
Myofibromatosis, solitary infantile, involving the clavicle (*case report*) 28:473
Myopathies, inflammatory, MRI in (*review article*) 29:425
Myositis, proliferative in a child (*case report*) 28:703
Myxoid chondrosarcoma, extraskeletal, of the knee (*letter to the editors*) 29:302
Myxoma of the humerus: an exceptional site of origin (*case report*) 29:57

Neck, elastofibroma of the (*case report*) 29:109
Neck, radiographic measurement of prevertebral soft tissue thickness on lateral radiographs of the 28:444
Neurilemmoma of the mandible (*case report*) 28:536
Neurofibromatosis, deep-seated segmental, without café au lait spots (*case report*) 29:543
Nutrient canal of the fibula 29:22

Oncogenic osteomalacia presenting as bilateral stress fractures of the tibia (*case report*) 28:46

Osteoarthritis, radiography in, of the knee (*review article*) 28:605
Osteoblastoma-like osteosarcoma 29:656
Osteoblastoma, multifocal of the hand (*case report*) 29:601
Osteoblastoma, spinal:CT and MR imaging with pathological correlation 28:33
Osteochondroma and secondary synovial osteochondromatosis (*case report*) 28:169
Osteochondroma,malignant degeneration of an, with unusual intra-bursal invasion (*case report*) 28:540
Osteodystrophy, erosive azotemic, clinical significance of: a prospective masked study 28:86
Osteogenic sarcoma, multifocal, in Paget's disease (*case report*) 29:349
Osteogenic sarcoma, primary pulmonary (*case report*) 29:283
Osteogenic sarcoma, recurrent,multiple, calcified soft tissue metastases from, without pulmonary involvement. (*case report*) 28:710
Osteogenic sarcoma with skeletal muscle metastases (*case report*) 28:298
Osteolytic extra-axial sacral myxopapillary ependymoma (*case report*) 28:584
Osteomalacia, oncogenic, presenting as bilateral stress fractures of the tibia (*case report*) 28:46
Osteomyelitis, chronic post-traumatic, of the lower extremity: comparison of magnetic resonance imaging and combined bone scintigraphy/immunoscintigraphy with radiolabelled monoclonal antigranulocyte antibodies 29:378
Osteomyelitis, chronic recurrent multifocal, premature epiphyseal fusion and degenerative arthritis in (*case report*) 29:94
Osteonecrosis of the femoral head, MR findings of necrotic lesions and the extralesional area of, 29:133
Osteoid osteomas, doppler duplex color localization of (*case report*) 28:107
Osteoid osteoma, peritumoral edema in, on magnetic resonance imaging 28:265
Osteoporosis, intra-articular regional migratory, of the knee (*case report*) 29:97
Osteoporosis, partial transient, of the hand 28:324
Osteosarcoma, dedifferentiated parosteal, with rhabdomyosarcomatous differentiation (*case report*) 28:527
Osteosarcoma in a patient with McCune-Albright syndrome and Mazabraud's syndrome (*case report*) 28:522
Osteosarcoma, intracortical osteoblastic, with oncogenic rickets 28:41
Osteosarcoma, multifocal, as second tumor after childhood retinoblastoma (*case report*) 28:415
Osteosarcoma of the metatarsal bone (*case report*) 28:294
Osteosarcoma, osteoblastoma-like 29:656
Osteosarcoma, parosteal, of a metatarsal with intramedullary invasion (*case report*) 28:111
Osteosarcoma, parosteal, telangiectatic dedifferentiation of a (*case report*) 29:597
Osteosarcoma, post-Paget telangiectatic, of the skull (*case report*) 28:470
Osteosarcoma, primary, of a metatarsal bone (*case report*) 29:474
Osteotomy, transtrochanteric rotational, bone scintigraphy and magnetic resonance imaging after 28:251

Paget's disease, gross vertebral collapse associated with long-term disodium etidronate treatment for pelvic (*case report*) 29:279
Paget's disease, multifocal osteogenic sarcoma in (*case report*) 29:349
Paget's sarcoma of tibiae, synchronous, in which Paget's disease was limited to these bones (*case report*) 28:599
Parathyroid carcinoma, hyperfunctioning (*case report*) 29:112
Parosteal osteosarcoma of a metatarsal with intramedullary invasion (*case report*) 28:111
Partial transient osteoporosis of the hand 28:324
Pasteurized intercalary autogenous bone graft: radiographic and scintigraphic features 29:335
Patellar tracking, proximal patellar tendinosis and abnormalities of 28:220
Pathologic and post-operative conditions of the plantar fascia: review of MR imaging appearances (*review article*) 29:491
Patient perception of magnetic resonance arthrography 29:265
Pectoralis major muscle and tendon tears: diagnosis and grading using magnetic resonance imaging (*review article*) 29:305
Pedicle marrow signal intensity changes in the lumbar spine: a manifestation of facet degenerative joint disease 29:703
Percutaneous Ethibloc injection in aneurysmal bone cysts 29:211
Peripheral focal low signal intensity areas in the degenerated annulus fibrosus on T2-weighted fast spin echo MR images: correlation with macroscopic and microscopic findings in elderly cadavers 28:209
Peripheral nerves, tumors of: correlation of symptoms, clinical signs, imaging features, and histologic diagnosis 28:183
Peritumoral edema in osteoid osteoma on magnetic resonance imaging 28:265
Peroneal nerve palsy caused by intraneural ganglion (*case report*) 28:52
Pilomatricoma, atypical adult non-calcified (*case report*) 29:54
Plantar aponeurosis, ultrasound of the, (*fascia*) 28:21
Plantar cerebriform hyperplasia, proteus syndrome: MRI characteristics of (*case report*) 29:101
Plantar fascia, pathologic and post-operative conditions of the: review of MR imaging appearances (*review article*) 29:491
Plant-thorn synovitis, imaging of (*case report*) 29:605
Plasmacytoma, extraosseous calcified, causing thoracic myelopathy (*case report*) 28:347
Popliteal amyloidoma presenting with leg ischemia in a chronic dialysis patient (*case report*) 29:717
Popliteomeniscal fascicles, MR visualization of the 28:561
Popliteal vascular malformation simulating a soft tissue sarcoma (*case report*) 28:532
Post-Paget telangiectatic osteosarcoma of the skull (*case report*) 28:470
Posterior glenoid rim deficiency in recurrent (atraumatic) posterior shoulder instability 29:204
Posterior tibial tendon abnormalities, association of, with abnormal signal intensity in the sinus tarsi on MR imaging 29:514
Posteromedial corner of the knee: MR imaging with gross anatomic correlation 28:305
Posteromedial subtalar coalition: imaging appearances in three cases 28:691
Post-traumatic and stress-induced osteolysis of the distal clavicle: MR imaging findings in 17 patients 28:202
Precision and intersite correlation of bone densitometry at the radius, tibia and femur with peripheral quantitative CT 28:696
Premature epiphyseal fusion and degenerative arthritis in chronic recurrent multifocal osteomyelitis (*case report*) 29:94
Prenatal diagnosis of distal arthrogryposis type 1 (*case report*) 28:233
Prevertebral soft tissue swelling following trauma: usefulness following tube placement 29:340
Primary angioleiomyoma of the iliac bone: clinical pathological study of one case with flow cytometric DNA content and S-phase fraction analysis (*case report*) 29:181
Primary clear cell sarcoma of bone: a unique site of origin (*case report*) 28:240
Primary clear cell sarcoma of bone (*letter to the editors*) 29:302
Primary hemangiopericytoma of the tibia: MR and angiographic correlation (*case report*)
Primary non-Hodgkin lymphoma of bone: unusual manifestation of lymphoproliferative disease following liver transplantation (*case report*) 28:175
Primary pulmonary osteogenic sarcoma (*case report*) 29:283
Primary osteosarcoma of a metatarsal bone (*case report*) 29:474
Progressive destructive vertebral sarcoid leading to surgical fusion (*case report*) 28:717
Proliferative myositis in a child (*case report*) 28:703
Prosthetic knee replacements, a radiological technique for the assessment of wear in 29:583

Proteus syndrome: MRI characteristics of plantar cerebriform hyperplasia (*case report*) 29:101
Proximal patellar tendinosis and abnormalities of patellar tracking 28:220
Psoriatic arthritis, the prevalence of sacroiliitis in: new perspectives from a large, multicenter cohort. A department of Veterans Affairs Cooperative Study 28:196

Radiographic evaluation of the lumbosacral disc height 28:638
Radiographic measurement of prevertebral soft tissue thickness on lateral radiographs of the neck 28:444
Radiography in osteoarthritis of the knee (*review article*) 28:605
Radiological assessment of the position of the tibial tuberosity by means of a marking wire in knees with patellofemoral arthritis 28:27
Rapid chondrolysis after an intra-articular leak of bone cement in treatment of a benign acetabular subchondral cyst: an unusual complication of percutaneous injection of acrylic cement (*case report*) 29:275
Reactive synovitis of the knee joint: MR imaging appearance with arthroscopic correlation 29:577
Recurrent,multiple,calcified soft tissue metastases from osteogenic sarcoma without pulmonary involvement (*case report*) 28:710
Renal cell carcinoma, sarcomatoid, sclerotic bone metastases from (*case report*) 28:590
Retroisthmic cleft: a stress fracture of the lamina (*case report*) 29:162
Reply (*letter to the editors*) 28:58
Reply (*letter to the editors*) 28:362
Retinoblastoma, multifocal osteosarcoma as second tumor after childhood (*case report*) 28:415
Rhabdomyosarcomatous differentiation, dedifferentiated parosteal osteosarcoma with (*case report*) 28:527
Rheumatoid arthritis,Are magnetic resonance flexion views useful in evaluating the cervical spine of patients with 29:85
Rheumatoid arthritis, Magnetic resonance imaging of, in metacarpophalangeal joints 29:324
Rickets, ebb and flow, in a premature infant: the Afghan turban sign (*case report*) 28:651
Rickets, oncogenic, intracortical osteoblastic osteosarcoma with 28:41
Rotator cuff repair, MR imaging after: full-thickness defects and bursitis-like subacromial abnormalities in asymptomatic subjects 29:314
Round cell tumours of bone, malignant: atypical clinical and imaging features 29:646
Rowers, a pilot study using magnetic resonance imaging to determine the pattern of muscle group recruitment by, with different levels of experience 29:196

Sacroiliitis, septic, MR imaging of 29:439
Sacroiliitis, the prevalence of, in psoriatic arthritis: new perspectives from a large, multicenter cohort. A department of Veterans Affairs Cooperative Study 28:196
Sacrum, cryptococcoma of the (*case report*) 28:49
SAPHO syndrome: 20-year follow-up (*case report*) 28:159
SAPHO syndrome, vertebral involvement in: MRI findings (*case report*) 28:163
Sarcoid, vertebral, progressive destructive, leading to surgical fusion (*case report*) 28:717
Sarcoma, alveolar soft part: MR and angiographic findings 29:680
Sarcoma of bone, primary clear cell: a unique site of origin (*case report*) 28:240
Sarcoma of bone, primary clear cell (*letter to the editors*) 29:302
Sarcoma, popliteal vascular malformation simulating a soft tissue (*case report*) 28:532
Sarcomatoid chordoma: chordoma with a massive malignant spindle-cell component (*case report*) 29:721
Schmorl's nodes, tunneling, in an elderly woman treated for acute lymphoblastic leukemia (*case report*) 29:660
Schwannoma, giant ancient, of the pelvis (*case report*) 29:538
Schwannoma, intraosseous, of the metacarpal (*case report*) 29:224
Sclerotic bone metastases from sarcomatoid renal cell carcinoma (*case report*) 28:590
Scoliosis, congenital, three-dimensional computed tomography in the assessment of 28:632
Semimembranosus tendon, complete rupture of the distal, with secondary hamstring muscles atrophy: MR findings in two cases 29:362
Seromas, MRI evaluation of post-operative, in extremity soft tissue sarcomas 28:279
Shoulder, an assessment of the effectiveness of magnetic resonance imaging of the: literature review (*review article*) 29:673
Shoulder girdle, denervation syndromes of the: MR imaging with electrophysiologic correlation 28:567
Shoulder instability, posterior glenoid rim deficiency in recurrent (atraumatic) posterior 29:204
Shoulder, internal derangements of the: decision tree and cost-effectiveness analysis of conventional arthrography, conventional MRI, and MR arthrography 28:670
Shoulder, MR arthrography of the, and hip after fluoroscopic landmarking 29:81 29:49
Shoulder, MR imaging of the, comparison of supraspinatus tendon and glenohumeral joint axes in 29:397
Skull, post-Paget telangiectatic osteosarcoma of the (*case report*) 28:470
Snake bite, chronic ulceration of the leg following extensive scarring due to a, complicated by squamous cell carcinoma (*case report*) 29:298
Solid aneurysmal bone cyst in the humerus (*case report*) 29:470
Solitary infantile myofibromatosis involving the clavicle (*case report*) 28:473
Solitary skeletal hemangioma of the extremities 29:502
Sonographic appearance of nonoperatively treated Achilles tendon ruptures 29:259
Sonographic evaluation of digital annular pulley tears 29:387
Sonographic findings, tuberculous infection of the gracilis muscle and tendon clinically mimicking deep venous thrombosis (*case report*) 28:457
Sparganosis, subcutaneous and musculoskeletal: imaging characteristics and pathologic correlation 29:402
Spinal canal, effect of low back posture on the morphology of the 29:217
Spinal osteoblastoma: CT and MR imaging with pathological correlation 28:33
Spinolaminar breach": an important sign in cervical spinous process fractures 29:75
Spondyloenchondromatosis, D-2-hydroxyglutaric aciduria in association with (*case report*) 29:289
Spondylometaphyseal dysplasia, Jansen type of (*case report*) 29:239
Spring ligament, MR imaging findings in insufficiency 28:245
Squamous cell carcinoma, chronic ulceration of the leg following extensive scarring due to a snake bite complicated by (*case report*) 29:298
Stickler syndrome, hereditary arthro-ophthalmopathy (*case report*) 29:613
Stress fracture of the lamina, Retroisthmic cleft:a (*case report*) 29:162
Stress fractures of the lateral metatarsal bones in metatarsus adductus foot deformity: a previously unrecognised association 28:679
Stress fractures of the tibia, oncogenic osteomalacia presenting as bilateral (*case report*) 28:46
Stress fractures, unusual longitudinal, of the femoral diaphysis: report of five cases 28:81
Subacromial bursa, MR imaging after therapeutic injection of the 28:628
Subacromial-subdeltoid lipoma arborescens associated with a rotator cuff tear 28:283
Subchondral insufficiency fracture of the femoral head and medial femoral condyle (*case report*) 29:40
Subcutaneous and musculoskeletal sparganosis: imaging characteristics and pathologic correlation 29:402
Subtalar coalition, posteromedial: imaging appearances in three cases 28:691
Synchronous Paget's sarcoma of tibiae in which Paget's disease was limited to these bones (*case report*) 28:599
Synovial desmoplastic fibroblastoma of hip joint with bone erosion (*case report*) 28:402

Synovial fluid, in vitro and in vivo spin echo diffusion imaging characteristics of: potential non-invasive differentiation of inflammatory and degenerative arthritis 29:320
Synovial osteochondromatosis,secondary, osteochondroma and (*case report*) 28:169
Synovial sarcoma arising in association with a popliteal cyst (*case report*) 29:713

Talus, fracture of the lateral process of the: appearance at MR imaging and clinical significance (*case report*) 28:236
Telangiectatic dedifferentiation of a parosteal osteosarcoma (*case report*) 29:597
Temporomandibular joint, Magnetic resonance imaging of the: diagnostic difficulty caused by extensive pneumatization of the mastoid air cells 28:577
Tendinitis, atypical calcific, with cortical erosions 29:690
Teratoma, dumb-bell-type, in the lumbar spine (*case report*) 29:104
The cost-effectiveness of routine pelvic radiography in the evaluation of blunt trauma patients 28:271
The influence of flip angle on the magic angle effect 29:593
The magnetic resonance imaging of musculoskeletal hemorrhage (*review article*) 29:1
The pathology of total joint arthroplasty 1. Mechanisms of implant fixation (*review article*) 28:423
The pathology of total joint arthroplasty II. Mechanisms of implant failure (*review article*) 28:483
The plantar fasciotomy: MR imaging findings in asymptomatic volunteers 28:447
The prevalence of sacroiliitis in psoriatic arthritis: new perspectives from a large, multicenter cohort. A department of Veterans Affairs Cooperative Study 28:196
The radiological findings in chronic expanding hematoma 28:396
The septic versus nonseptic inflamed joint: MRI characteristics 28:616
Thigh, deep soft tissue leiomyoma of the (*case report*) 28:411
Thoracic myelopathy, extraosseous calcified plasmacytoma causing (*case report*) 28:347
Thoracolumbar, MRI findings of spine fractures: a categorisation based on MRI examinations of 100 fractures 28:433
Three-dimensional computed tomography in the assessment of congenital scoliosis 28:632
Thumb, metadiaphyseal chondroblastoma of the (*case report*) 29:176
Tibia and fibula, congenital transverse deficiency of the: a report of two cases (*case report*) 29:243
Tibia, primary hemangiopericytoma of the: MR and angiographic correlation (*case report*) 29:49
Tibial tuberosity, radiological assessment of the position of the, by means of a marking wire in knees with patellofemoral arthritis 28:27
Transient osteoporosis, a clinicopathologic study of, of the hip 28:621
Trauma, blunt, the cost-effectiveness of routine pelvic radiography in the evaluation of patients 28:271
Trauma, prevertebral soft tissue swelling following: usefulness following tube placement 29:340
Trisomy 8 mosaicism, broad clavicles in: a new sign (*case report*) 28:359
Tuberculosis, isolated sacral, imaging in: a review of 15 cases 29:392
Tuberculosis of the sternum and clavicle: imaging findings in 15 patients 29:447
Tuberculous infection of the gracilis muscle and tendon clinically mimicking deep venous thrombosis: sonographic findings (*case report*) 28:457
Tumors of peripheral nerves: correlation of symptoms, clinical signs, imaging features, and histologic diagnosis 28:183
Tunneling Schmorl's nodes in an elderly woman treated for acute lymphoblastic leukemia (*case report*) 29:660
Type I Gaucher disease: extraosseous extension of skeletal disease 29:15

Ulna, hemangioma of bone arising in the: imaging findings with emphasis on MR (*case report*) 29:231
Ultrasound of the plantar aponeurosis (*fascia*) 28:21
Unsuspected metastases presenting as solitary soft tissue lesions: a fourteen-year review 29:270
Unusual longitudinal stress fractures of the femoral diaphysis: report of five cases 28:81
US and MR imaging of peripheral nerves in leprosy 29:142

Variation among giant rice bodies: report of four cases and their clinicopathological features 29:525
Variations in meniscofemoral ligaments at anatomical study and MR imaging 28:189
Vascular lesions of bone, benign: radiologic and pathologic features (*review article*) 29:63
Vascular lesions of bone, malignant: radiologic and pathologic features (*review article*) 29:619
Vascular malformations, intramuscular, of an extremity: findings on MR imaging and pathologic correlation 28:515
Vascular malformation, popliteal, simulating a soft tissue sarcoma (*case report*) 28:532
Vertebral intra-osseous chordoma, or giant notochordal rest? (*case report*) 28:342
Vertebral involvement in SAPHO syndrome: MRI findings (*case report*) 28:163
Vertebral sarcoid, progressive destructive, leading to surgical fusion (*case report*) 28:717

Wrist and hand, high-frequency ultrasound examination of the (*review article*) 28:121
Wrist, frequency and spectrum of abnormalities in the bone marrow of the: MR imaging findings 28:312
Wrist, indirect MR arthrography: the effects of passive motion versus active exercise 29:10

X-linked hypophosphatemia: Lumbar and radial bone mineral density in children and adolescents with, evaluation with dual X-ray absorptiometry 29:90
